Notes:

- 1) Population = arrivals, secondary migrants and asylees with DOE June 2001 - May 2006
- 2) W-2= refugee participants in May 2006
- 3) FS = individuals age 18-55 receiving Food Stamps in May, 2006
- 4) RCA = individuals receiving RCA in July 2006
- 5) Total Welfare five years and under is the sum of W-2, FS and RCA and represents the targeted welfare population
- 6) Percentage of population indicates the proportion of the total eligible refugee population which is in each Region
- 7) Percentage of five year and under welfare population indicates the proportion of the total welfare population which is in each Region
- 8) SS E&T allocation is calculated by multiplying the total funds available by the average of the percentage of eligible refugees and the percentage of welfare recipients in the I
- 9) SS allocation is calculated by multiplying the total funds available by the percentage of eligible refugees in the Region
- 10) Agencies applying for Road to Work are expected to apply for funding within this range, which is based upon the eligible population
